

All-New Ford Maverick

FLEXBED

Customers will be able to scan a QR code in the bed for additional ideas

The all-new Ford Maverick features FLEXBED™, the most innovative truck box Ford has ever created. Loaded with organization and storage features to give customers ways to secure cargo and easy ways to create DIY solutions. Some assembly encouraged.

Utility can be added with home improvement store products and basic tools. Create a fishing rod holder, hooks to hang climbing gear, a snowboard carrier – the limits are the owner’s imagination. Ford accessories to enhance Maverick will of course be available, including bolt-in sliding tie-downs, a bed extender, tonneau cover and more.
